

Declass Review by NIMA / DoD

January 12 , 1964

John,

Some notes and comments.

STATINTL

1. We did not have much time for discussion on my last visit. Will you be out this way soon, say in the next month or so? It is perhaps too early to schedule the next visit to WDC, but perhaps it should be about March 1.

2. The conference at [REDACTED] on the HTA/5 didn't come up with immediate decisions, but we got a lot talked out with [REDACTED] and I think it was useful to [REDACTED]

3. The visit to [REDACTED] was to preview their presentation, which was scheduled for December. We weren't completely happy with it. We felt it might drone on a bit and offered a few suggestions to snap it up. The December 12 presentation was packed with information but the talk was not very inspiring.

4. [REDACTED] asked me to make some visits in lieu of his making a trip out here in December. That is the reason for the trip to [REDACTED] December 5. [REDACTED]

[REDACTED] went to see them last week again and I think there should be another visit scheduled in Feb.

5. Typing seems to be my main bottleneck. Do you think it would be possible for me to get a girl cleared to do some typing for me? If so, will you send me 6 copies of Form DD48?.

There is lots more to talk about, but I'll continue this in another chapter.
